

EnviroVibe User Manual

INFORMATION ABOUT YOUR ENVIROVIBE:

By re-structuring the clustering of the water molecules in your drinking water, you ensure a high level of hydration and an increase of as much as 30% of oxygen at a cellular level.

Dreaded disease such as cancer has difficulty surviving in an oxygen-rich, hydrated environment.

Your treatment with your RoyalVibe will be even more effective when there is more cellular communication due to hydration, thus assisting your cells to function at an optimal level.

This also ensures faster healing and cell regeneration.

USING YOUR ENVIROVIBE:

***NB* THE ENVIROVIBE CONTAINS MAGNETS.**

DO NOT PUT YOUR CELLPHONE DIRECTLY ON THE ENVIROVIBE.

PERSONS WITH STENTS OR PACEMAKERS: MAKE SURE THE ENVIROVIBE IS AT LEAST 500mm AWAY FROM THE STENT/ PACEMAKER.

1. Make sure your RoyalVibe device is switched on.
2. Connect the gold-tipped end of your EnviroVibe cable to the EnviroVibe, and the silver-tipped, bayonet end to your RoyalVibe. (Connect to “BALL-“ on the device)
3. Under Quick Treatments, search “WATER RESTRUCTURE” and run it.

4. The re-structuring process is complete, even though the treatment is 30 minutes long – regardless of the water being in a glass/ jug/ bottle.
5. It is recommended that you use a glass water bottle/ container.
6. Once you have re-structured your water, use within 3 days.
7. Environmental radiation like cellphone towers influence the structure of the water, so where exposed to such, re-structured water must be used in less than 3 days.
8. Keep re-structured water at least 1.5m away from electrical cables & wall-sockets.

EXTRA NOTES:

- Your EnviroVibe contains an ultrasound transmitter, the same as in your Red ultrasound transmitter used for your RoyalVibe device, and can be utilized as such.
- According to feedback from our clients, in addition to restructuring your water, the EnviroVibe has proven to be incredibly effective for treating pain; inflammation; wounds; broken bones; stomach ailments such as diarrhea or constipation, etc.
- For example, you can place your EnviroVibe directly on your stomach and run the “CONSTIPATION SHORT” treatment found on Public Groupings, or place a broken leg on or next to your EnviroVibe and run the “BONE HEALING AND INFLAMMATION” treatment.

- When doing treatment on your EnviroVibe, all treatments MUST take place on the flat sides of the EnviroVibe-NOT on the sides. This applies whether you are treating water, or a person.

****Should you be unsure how to connect/ run your EnviroVibe, please have a look at the “HOW TO” VIDEOS on the main screen of the RoyalVibe app.**
